## ABOUT THE PLAY

The play is the story of a woman's love for the natural world and her fight to defend it. It is the story of the extremely private Rachel Carson thrust into the role of controversial public figure.

A Sense of Wonder has been created with the help and guidance of many of Miss Carson's friends and colleagues and with permission from the Rachel Carson Estate.

# ABOUT RACHEL CARSON

Rachel Carson has been called the "Patron Saint of the Environmental Movement." She was a marine biologist and zoologist best known for her book *Silent Spring*, which alerted the world to the dangers of chemical pesticides and launched our modern environmental movement.

Less known is that Miss Carson was one of America's great poets of natural world. In her earlier works she brought alive the beauty and mystery of the seas and its creatures to millions of readers.

In their purest form the poet and the scientist are one and the same. They are the seekers after truth. Through the power of her knowledge and the beauty of her language, Rachel Carson became one of the great champions of the living world.

**You cannot walk away unmoved.**

**- Bill Moyers, PBS**

**"...what Lee achieves in barely an hour is something rare and almost spiritual. She merges herself with Carson's spirit. Chin jutting forward, she leans toward us, reminiscing, lecturing, pleading. Fire comes into her eyes...I felt flashes of transcendence, the stage disappearing into a living authentic presence. "**

**-Christopher Rawson, Drama Critic  
Pittsburgh Post Gazette**

**"Rachel Carson shook the world of journalism and changed the shape of environmental politics. There are few if any comparable figures in either field. Kaiulani Lee's performance gave me the opportunity to feel I had met this remarkable woman and experienced the quiet courage of Rachel Carson.**
